

# Administrator Evaluation Guide

2016-2017 2017-2018

# A Note from the Superintendent

Dear Administrators,

At W-A-Y Charter Schools, we believe in the process of continuous improvement; identifying areas of strength and areas of improvement, developing and carrying out a plan and measuring our results. The new administrator evaluation tool we are implementing this year is just another tenet of our continuous improvement process. The evaluation process focuses on effective leadership, professional growth and student growth.

Last year, we developed a common language centered on the national standards and 21st Century skills to articulate expected outcomes for our students. As a result of this process, we now share a vision of what effective instruction looks like and sounds like using project-based learning as our foundation.

Since teaching is an art and a science; teachers will have opportunities to build on their strengths to hone their craft of teaching while using data to plan and inform their instruction. Directors will provide meaningful and specific feedback and support so they can perform at their very best.

Our mission at W-A-Y Charter Schools is to "Change lives by creating engaging educational opportunities for students". We believe teachers make this happen everyday with the students in our labs. We consider teachers as our greatest assets in preparing our students for college and 21st Century careers.

In order for our students to compete with their peers across the nation, we need to concentrate on the quality of face-to-face instruction within our blended learning model.

Educationally yours,

Jennifer A. Hernandez Ed.S. Superintendent W-A-Y Charter Schools

# Introduction

The purpose of this guide is to describe the process used by WAY Charter Schools to evaluate and rate administrator performance throughout the school year. The administrator evaluation is a continuous improvement process that provides a consistent and systematic approach for engaging teaching professionals in rich discussions about administrator effectiveness as it relates to student growth. This process encourages reflection on leadership practices while supporting professional growth of administrators to foster teacher and student growth.

WAY Charter Schools has adopted the state approved School Advance Principal Evaluation Framework Evaluation for conducting observations of our schools. This tool was selected because it compliments many of our current leadership beliefs and practices.

The educator evaluation process complies with Public Act 173 of 2015.

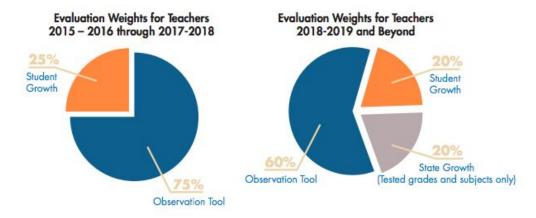

## PROFESSIONAL DEVELOPMENT

Administrators are provided professional development on the performance evaluation systems for the 2016, 2017, & 2018 school years.

| Training  | Vendor                  | Audience       | Description                               | Timeline         |
|---|-------------------------|----------------|---|------------------|
| School<br>Advance<br>Principal<br>Evaluation<br>Framework | School<br>Advance       | Administrators |   | February 3, 2017 |
| School<br>Advance<br>Principal<br>Evaluation<br>Framework | Central Office<br>Staff | Administrators | Overview of the School Advance<br>Rubrics | October 13, 2017 |

## **EVALUATION PROCESS**

The evaluation process is an ongoing cycle designed for continuous dialogue, support and improvement. An administrator evaluation consists of school walkthroughs and student growth measures in providing a summary of actionable feedback on an administrator's performance over the course of a school year. Based on the outcomes of school walkthroughs and student growth measures, administrators are assigned an effectiveness rating of highly effective, effective, minimally effective or ineffective. For the 2016-2017 and the 2017-2018 school years, 75% of an administrator's evaluation is based on school walkthroughs conducted by the superintendent and 25% is based on student growth measures. For the 2018-2019 school year 60% of an administrator's evaluation is based on school walkthroughs conducted by the superintendent, 20% is based on student growth and another 20% is based on state growth.

Michigan Educator Evaluations Frequently Asked Questions (FAQs) 6/2016

# **Evaluation Scoring**

The student growth rating is combined with the school walkthrough rating to determine the administrator's summative rating.

| Component        | Weight | Highly<br>Effective | Effective  | Minimally Effective | Ineffective |
|------------------|--------|---------------------|------------|---------------------|-------------|
| Student Growth   | 25%    | 3.5 - 4.0           | 2.5 - 3.49 | 1.5 - 2.49          | 0 - 1.49    |
| Observation Tool | 75%    | 3.5 - 4.0           | 2.5 - 3.49 | 1.5 - 2.49          | 0 - 1.49    |
| Total Score      | 100%   | 3.5 - 4.0           | 2.5 - 3.49 | 1.5 - 2.49          | 0 - 1.49    |

# **Evaluation Rating**

The student growth rating is combined with the school walkthrough rating to determine the administrator's summative rating. Evaluation ratings are assigned using the following cut scores,

| Final Rating        | Total Score |
|---------------------|-------------|
| Highly Effective    | 3.5 - 4.0   |
| Effective           | 2.5 - 3.49  |
| Minimally Effective | 1.5 - 2.49  |
| Ineffective         | 0 - 1.49    |

## SCHOOL ADVANCE PRINCIPAL EVALUATION FRAMEWORK

For the 2016-2017 school year, administrators will be evaluated on Domain 1: Results, Domain 2: Leadership and Domain 3: Programs.

| Domain        | Highly<br>Effective | Effective | Minimally<br>Effective | Ineffective |
|---------------|---------------------|-----------|------------------------|-------------|
| 1. Results    | 4                   | 3         | 2                      | 1           |
| 2. Leadership | 4                   | 3         | 2                      | 1           |
| 3. Programs   | 4                   | 3         | 2                      | 1           |

For the 2017-2018 school year administrators will be evaluated on,

- Domain 1: Results
- Domain 2: Leadership
- Domain 3: Programs
- Domain 4: Processes
- Domain 5: Systems

| Domain        | Highly<br>Effective | Effective | Minimally<br>Effective | Ineffective |
|---------------|---------------------|-----------|------------------------|-------------|
| 1. Results    | 4                   | 3         | 2                      | 1           |
| 2. Leadership | 4                   | 3         | 2                      | 1           |
| 3. Programs   | 4                   | 3         | 2                      | 1           |
| 4. Processes  | 4                   | 3         | 2                      | 1           |
| 5. Systems    | 4                   | 3         | 2                      | 1           |

## WALKTHROUGHS

A walkthrough is an exercise conducted using the district adopted administrator evaluation tool with fidelity. A walkthrough not only considers evidence observed but it must also considers evidence collected throughout the year relevant to each domain. A walkthrough is one component of the administrator evaluation process that provides data for the annual year-end evaluation.

# **Walkthrough Process**

## **Self-Reflection**

During the self-reflection the administrator presents his/her assessment and evidence to support their performance as it relates to the School Advance Principal Evaluation Framework observation. The administrator and superintendent discuss the assessment and supporting evidence. The superintendent asks guiding questions to assist the administrator in considering other evidence or sources of evidence.

#### Outcomes for the self-reflection

- Set expectations for the evaluation process
- Develop a clear understanding of the framework
- Identify goals for improvement
- Revise leadership, programs, processes and/or systems targeted for improvement

#### Points for discussion:

- Fidelity of the vision, mission and program
- Degree of team collaboration, climate and culture
- How is success measured and/or monitored success?
- How do you prioritize responsibilities?

## Walkthrough

The administrator and superintendent schedule a day and time for the Walkthrough.

## **Post-Conference**

The administrator and superintendent meet to reflect on the walkthrough, review evidence collected and discuss the superintendent's feedback. Feedback follows the 7 Keys to Effective Feedback: goal referenced, tangible and transparent, actionable, user-friendly, timely, ongoing and consistent. Through this capacity building process the teacher refines instruction for continuous improvement.

#### **Professional Growth Plan**

The professional growth plan includes specific goals and outcomes to be achieved for the school year. This growth plan serves as the performance improvement plan in compliance of the Public Act 173 of 2015. The professional growth plan is created for each administrator based on their first walkthrough and feedback during their first post-conference. For subsequent walkthroughs the administrator's professional growth plan will be updated accordingly.

#### **Year-End Conference**

The year-end conference is the culminating activity of the administrator's evaluation process. During this conference the administrator and superintendent meet to review the administrator's overall performance for the school year. The superintendent and administrator review evidence from all the walkthroughs, the professional growth plan goals and outcomes achieved, and student growth data. This is also a time to set new goals for the upcoming school year and plan for professional development and training. The superintendent will also share the administrator's summative rating during the conference.

# **CALENDAR OF ACTIVITIES**

# STUDENT GROWTH MODEL: STUDENT LEARNING OBJECTIVES

Student growth models are used to measure a teacher's impact on student learning within a school year. Although there are many student growth models available, WAY Charter Schools will use the Student Learning Objective (SLO) Model to measure student growth. This model uses intervals of instruction to measure long term educational goals. Below is a correlation of our goals to our assessments.

| Educational Goal  | Assessment                 | Subjects        |
|---|----------------------------|-----------------|
| Grades 9-12: Students' academic growth between tests will demonstrate measurable progress toward the grade-level core subject area achievement targets. | Performance<br>Series Test | Reading<br>Math |

| Grades 9 and 10: Students' college readiness will be determined using the core subject area scores on the PSAT | PSAT | Reading<br>Math            |
|--|------|----------------------------|
| Grades 11 and 12: Students' college readiness will be determined using the core subject area scores on the SAT | SAT  | Reading<br>Writing<br>Math |

## **Growth Targets**

Teachers and administrators can impact student growth by using student growth targets to plan for instruction. These growth targets equate to one year of academic growth. Growth targets will be measured using data from our assessments.

- Performance Series growth targets are created automatically once students have taken
  the initial assessments. All students take these assessment in the fall and new students
  should take the Performance Series Test once they enroll. To access student growth
  targets login to Performance Series and run the "Gain Analysis" report.
- PSAT growth target is a score that is on track to meeting the 1070 score on the SAT.
   This score is shown below.
- SAT growth target is 1070 for all students.

| Assessment           | Growth Target         |
|----------------------|-----------------------|
| Performance Series   | Created Automatically |
| PSAT 9th Grade EBRW  | 410                   |
| PSAT 9th Grade Math  | 450                   |
| PSAT 10th Grade EBRW | 430                   |
| PSAT 10th Grade Math | 480                   |
| SAT EBWR             | 480                   |
| SAT Math             | 530                   |
| SAT Total Score      | 1070                  |

## **Correlation of Content Areas with Assessments**

| Content Area    | Assessment         | Subject Tested | Weight |
|-----------------|--------------------|----------------|--------|
| English, Social | Performance Series | Reading        | 50%    |
| Studies         | PSAT/SAT           | Evidence Based | 50%    |

|         |                    | Reading and Writing                   |     |
|---------|--------------------|---------------------------------------|-----|
| Math    | Performance Series | Math                                  | 50% |
|         | PSAT/SAT           | Math                                  | 50% |
| Science | Performance Series | Reading                               | 50% |
|         | PSAT/SAT           | Evidence Based<br>Reading and Writing | 50% |

# **Student Growth Rubric For Teacher Effectiveness Labels**

Data will be used for students on the school roster who have taken the Performance Series, PSAT, and SAT.

| Effective Labels   |  |  |   |
|--|--|--|---|
| Highly Effective   | Effective  | Minimally Effective  | Ineffective   |
| 3.76 - 4.0   | 2.6 - 3.75   | 1.6 - 2.5  | 1.0 - 1.5   |
| Between 75% - 100% of students demonstrated adequate growth on the Performance Series, PSAT and SAT assessments. | Between 50%-<br>74.9% of students<br>demonstrated<br>adequate growth on<br>the Performance<br>Series, PSAT and<br>SAT assessments. | Between 25%-<br>49.9% of students<br>demonstrated<br>adequate growth<br>on the Performance<br>Series, PSAT and<br>SAT assessments. | Between 0 - 24.9% of students demonstrated adequate growth on the Performance Series, PSAT and SAT assessments. |
| The district will determine growth on an annual basis using the most recent data.                                | The district will determine growth on an annual basis using the most recent data.  | The district will determine growth on an annual basis using the most recent data.  | determine growth on an annual basis using the most recent data.   |
